

Looking for LEADER?

Special Event for rural projects past, present – and future

Opening remarks: Richard Lochhead

Cabinet Secretary for Rural Affairs and Environment

Friday 14th October – Milnorduff Village Hall 10am – 1pm
followed by lunch and networking

LEADER – enhancing quality of life in rural communities

This is an invitation to attend the above event, which has been set up to promote the Moray LEADER programme – and give you the chance to find out more about how LEADER works, and what it has to offer your community. If you're currently working with LEADER, or have worked with them in the past, we hope you'll come along and contribute to the event by sharing your experiences with others.

Forward-thinking Funding

LEADER is an innovative, wide-ranging funding programme aimed at improving quality of life and encouraging economic prosperity in rural communities. It supports local initiatives and projects that meet a diverse range of community needs and aspirations.

The Moray LEADER Programme is in its final 2 years – and there's still over £800,000 to commit to viable projects. If you think you have a community project that could benefit from LEADER input, then come along to this FREE event and find out more about LEADER and how it can help you take your community forward.

Who's going to be there?

Following Richard Lochhead, Alice Mayne of the Whale and Dolphin Conservation Society, Janis Thomson from Kinloss Hall, Mary Bourne, who helped create the Mortlach Story Walks and Cath Millar of the Burghead Headland Trust will be talking about their experiences of working with LEADER.

During lunch, there is the opportunity to have a chat and meet members of the Local Action Group (LAG) including Chairman Priscilla Gordon-Duff, and Programme Manager David Watson. You'll be able to get all the advice and information you need on how to take your project forward.

Don't miss out – to ensure your place at the LEADER event, and find out if your project could benefit from some forward-thinking funding, register now at:
